Proven Solutions You Can Trust

Continued Protection Throughout the Patient Journey

You can have confidence in your pressure injury prevention solutions, as our versatile designs aim to protect patients throughout the continuum of care. Our portfolio of products can be utilized throughout the patient journey - starting at entry, moving into various acute settings, to discharge.

A Partner You Can Trust

Highly skilled EHOB™ representatives focus on training staff throughout implementation and in-services, ensuring accurate product use and facility protocol compliance are followed.
